HEALTHY ART

Interiorscapers are a unique kind of artist—they make art with plants. When plants and containers are selected and arranged in a way that evokes a positive emotional response, they become what we like to call “Healthy Art.”

In this Volume II of our Healthy Art series, our customers from North America and Europe have submitted an outstanding array of beautiful installation photographs. We received so many that we have divided them into 5 groups, as follows:

- INDOOR
- LIVING WALLS
- HOLIDAY
- EXTERIOR
- EUROPE

Many thanks to all of our customers for your wonderful work, and a special thanks to our sister company in Europe, Nature’s Green, for your beautiful and inspirational entries.

We hope you and your clients find this compilation inspiring as well.

Sincerely,

Steve Decker *Phil Feinman*

Steve Decker and Phil Feinman
President and Chairman, Architectural Supplements.

INDOOR

* For more information on how plants contribute to health and productivity in the work place please contact **Green Plants for Green Buildings** at 800 347 9014 or visit their website at www.gpgb.org
